Just 30 km from the provincial centre of Almería remotely one finds the nature reserve "Desierto de Tabernas" with its unique natural landscapes.

An area of 2000 sq. kms is framed by the mountains the los Filabres, Alhamilla and Gador. This scenery, unique in Europe, attracts filmmakers of the whole world here since the 20th century, and in 1954 originated here the first Italo western, followed by countless other famous films. On the edge of this Nature park lies Tabernas as the biggest municipality of the province, with health centre, sports fields, swimming-pool, Arabic baths, bullfight arena, numerous shopping possibilities and bars, restaurants and discos. Excursions inland, to the sea, to lonesome bays and full beaches, but also a lot of sport (golf, water sport, hiking and biking, motor bike circuit, tennis and much more) cultural programmes (theatre, bullfight, flamenco etc.) like visits to the spectacular Alcazaba of Almería or unique Alhambra of Granada complement every holiday programme.

Almost half a year is possible for winter sports in the Sierra Nevada with her world cup standards, intrepid bathings still in winter on the coasts and beaches of the province. The highest sunshine duration in Europe guarantees almost always sunny weather and starry nights permit excellent sky observations.

There are flights daily or weekly, over Malaga, Almería, Granada, Murcia and Alicante.

Geographical situation and how to find us
